

Rome, 31<sup>st</sup> March 2022

The General Management defines the Policy on Quality. It establishes goals and commitments, depending on business strategies towards the customers, the Market, the Owners and Employees of the Company, to implement, maintain and improve the performances of the Company Quality Management System, maintaining adherence to regulatory requirements and applicable regulatory requirements, including also voluntary and obligatory regulations related to medical devices (MDR 2017/745 – Medical Device Regulations) and to other marketed products as indicated in the Annex 3 to the Integrated Management System Manual, “*Normative References*”, periodically updated.

The Company Quality Management System, as described and defined by this document, should enable the compliance with commitments assumed by the General Management and it should enable the management of risks/opportunities assessed as significant by the management itself and for which the management system identified appropriate mitigation /improvement measures.

To this purpose, the General Management believes that the involvement of the whole staff Omikron Italia is essential for implementing Quality Management System, in order to achieve full customer satisfaction and to consolidate Company image on the Market.

The Mission of Omikron Italia is to answer in an exhaustive way to the therapeutic needs of patients affected by main vascular and eye diseases, especially those affected by glaucoma or diabetic retinopathy. Omikron Italia is a Pharmaceutical Company intending to be a partner for Specialists and General Practitioners able to ensure the highest satisfaction of Medical Class and Patients by providing innovative therapeutic tools (medicinal products, medical devices, nutraceuticals).

Innovative therapeutic tools, production technologies and specialization of Sales Representatives serving the Medical Class represent the philosophy of the Mission of Omikron Italia.

Sales Representatives introduce Omikron Italia products and scientific Literature to General Practitioners, Ophthalmologists and Vascular Specialists in accordance with the Corporate Ethical Code, AIFA and Ministry of Health laws.

Technical and scientific training of the Sales Representatives is a key instrument of Omikron Italia.

Omikron Italia, through its business activities, also assumes a serious responsibility, even ethical, towards patients. For this purpose, the Company is committed to make every effort in the field of Research, in order to develop therapeutic and scientific solutions to ensure the highest satisfaction of Medical Class and Patients.

To find and maintain a leading position in the National Market, and continue to obtain further International market shares and to and to achieve satisfaction of Medical Class and Patients, Omikron Italia is continuously engaged in the following activities:

- to plan, develop and market new products, more and more innovative, designed and manufactured specifically to meet therapeutic needs of patients and the physicians, anticipating their expectations and providing useful and effective solutions;
- to increase the number of the Sales Representatives to ensure an increasing uniform coverage of the whole national territory;
- to train and update Sales Representatives on findings of scientific Research, on new active ingredients and Company products;
- to speed up products distribution through most innovative and reliable technical tools, thus increasing the organization.
- to constantly assess all information relating to the safety of medicines/drugs of which Omikron Italia is the MAH and to ensure, for all its medicines on the market, a favorable risk/benefit ratio for the population;
